

# **CLAIRTON SPORTSMEN'S CLUB**

## **From the President:**

### **Exciting Upcoming Event:**

**Clairton Sportsmen's Club**

**Tuesday, March 31, 2020**

**6:00 - 9:00 pm**

### **Firearms Law Workshop / Use of Force Simulation Training**

U.S. Law Shield and SimTac Services are proud to present a very unique educational opportunity! Experience a type of critical incident training that is usually only available to Law Enforcement Officers! Any time we are able to offer one of these classes at a gun club, it usually sells out in a day. If you want to come, now is your chance - just make sure you sign up fast!

We will start the course with a legal lecture that explains when you can use a firearm to defend yourself and/or someone else. During the second half of the course, attendees will have the opportunity to volunteer to go through simulated scenarios which will require them to make split-second decisions about using deadly force while carrying a laser firearm that is designed to look and feel like exactly like a real firearm. After participants complete the scenarios, the instructors will offer feedback and solicit opinions from the audience.

This course is always an eye-opening experience for everyone in attendance whether they choose to go through the scenarios themselves or just to observe.

Cost: FREE to Club Members.
