Join us at Clairton Sportsmen's Club's clubhouse from 6-8:30pm on 9/28/2021 to hear one of U.S. Law Shield's highly experienced firearms program attorneys teach an engaging class about the firearms laws in Pennsylvania. He will explain the legal requirements in Pennsylvania that allow someone to use force to protect themselves and others. Additionally, he will explain when escalating levels of force can be used justifiably under Pennsylvania law. He will also discuss topics such as the "totality of the circumstances" and what "reasonable" means in a legal context. This event is free for US Law Shield members and members of the club. For Clairton Sportsmen's Club members who are not members of US Law Shield, register as a non-member then use the code FRIEND to have the registration fee waived.
